

Bring Your Classroom to Our Classroom

FIELD TRIPS & SLEEPOVERS

You're not just observing marine life—you're part of it.

As a leader in environmental **education**, marine animal conservation, and research, SeaWorld provides **up-close**, in-depth, and engaging educational **field trips** and **sleepovers** for students and groups.

Visit SeaWorldOrlando.com/Education or call **407-545-5550** for details.

What Makes Our Field Trips One of a Kind?

- SeaWorld Orlando is a world-class zoological facility - the only place in Florida to learn first-hand about **killer whales, penguins, walrus**, endangered **sea turtles**, and rescued **manatees**, all in one location.
- We provide unique opportunities for **up-close**, personal **animal connections**.
- Field trips include **full access** to our exciting **shows, animal attractions**, and a chance to learn about all of the animals at SeaWorld and our commitment to conservation.
- We provide **FREE** educational resources for teachers to help them prepare students for their field trip.
- Advanced supplemental material for high school curriculum is available.

OUR PROGRAMS SUPPORT:

- Florida standards
- National Common Core standards
- Essential Principles of the Ocean Literacy Project
- STEM concepts

BIG IDEAS

- Organization and Development of Living Organisms
- Heredity and Reproduction
- Interdependence
- Diversity and Evolution of Living Organisms
- Matter and Energy Transformations

Ocean Discovery

Grades K-12

The Ocean Discovery Field Trip Experience provides your students with an unforgettable day filled with activities designed to encourage hands-on educational experiences, including an exciting educational presentation at one of our stadiums showcasing our animal ambassadors.

Starting at
\$29*

SeaWorld Science

1-Hour Course — Grades K-College

Do you want to customize your experience? Add a one-hour specialty program to your field trip. Topics include sharks, whales, Florida habitats, polar habitats, zoo careers or rescue.

Starting at
\$39*

Saving Our Seas

5-Hour Course — Grades 6-12

Students visit behind the scenes for a look at SeaWorld's efforts to preserve and protect animal species that share our planet. They'll also experience our world-class shows and animal exhibits. Students will encounter dolphins, manatees, sea turtles, and more while learning first-hand about the problems these animals face.

Starting at
\$69*

*Per participant, 10 paid students minimum

SLEEPOVERS (Grades 2-12)

Kids may be sleeping with one eye open the first time they see something move in the water, but our sleepovers are packed with so much learning (shhh, don't tell them), who has time to sleep anyway?

Explore the park after dark starting at 6 p.m. with your SeaWorld Instructors. Age-appropriate educational content, standards-based activities, and up-close animal encounters are all part of the fun. At 9 a.m., your SeaWorld Instructors conclude the sleepover portion of your program so you can enjoy a fun-filled day experiencing our exciting shows and animal exhibits.

PROGRAM INCLUDES:

- Sleeping on-site (overnight, 6 p.m. - 9 a.m.)
- Educational activities
- Pizza dinner & continental breakfast
- Next day park entry

Starting at

\$98

per participant

20 paid minimum

\$100 non-refundable
deposit per venue.

Full payment due
4 weeks prior
to program.

Cozy up next to your favorite animal.

Your hardest decision is
where to spend the night!

BELUGA

Visit the icy North Pole of the Arctic to slumber beside beluga whales. Listen carefully while you drift off to sleep because these whales are also called the sea canaries.

CORAL REEF

Lionfish, wobbegong, and barracuda... oh my! You never know what you'll discover as you sleep beside the underwater paradise of the coral reef.

DOLPHIN

Playful dolphins will show you how to have fun as you drift off to dreamland alongside these magnificent mammals.

MANATEE

Float off to a peaceful slumber alongside these gentle herbivores.

PENGUIN

Experience the thrill and chill of the Antarctic. Spend the night with penguins and discover the secrets of these charming marine birds. It's chilly here so bring an extra blanket.

RAY

Lively rays chase your dreams as you snuggle in your sleeping bag alongside these fantastic, flat relatives of sharks.

SEA TURTLE

These remarkable reptiles will lull you to sleep as they dip and glide through their coral reef habitat.
